# ABOUT US

## Who Are We?

Istinye University, established in 2015 by the 21st Century Anatolian Foundation, builds upon 25 years of expertise under the MLP Care Group—the largest private healthcare network in Türkiye. As one of the fastest-growing healthcare institutions globally, we bring together two esteemed hospital brands: Liv Hospital and Medical Park.

The main goal of Istinye University is to educate new generations who can foster their individual growth and take responsibility for the sustainable development of society.

Istinye University, which applies a student-oriented educational approach in all aspects of the university, aims to push the boundaries of science, to implement the findings of scientific research for the welfare of society, and to provide accessible health services in line with its vision of becoming a center of science and research.

In this context, we are shaping the future by being pioneers in education, teaching, and research through our academic, scientific, and cultural activities.

# ISTINYE UNIVERSITY HOSPITALS

# Fully Equipped Medical Facilities

*"Learning through experience is the philosophy of Istinye."*

Istinye University has two research hospitals and one dental hospital: Istinye University Hospital Bahçeşehir, Istinye University Hospital Gaziosmanpaşa and Istinye Dent Hospital. We are also preparing to open our fourth university hospital in Istanbul.

Students can gain experience in our hospitals with the academic approach of Istinye University and the excellent service standards of our hospitals.

Istinye University Liv Hospital Bahçeşehir provides tertiary health services, including education and research studies, while accepting patients in all branches such as the Organ Transplantation Center, Vascular Health Center, Spine Health Center, Pain Center, Stroke Center, Speech and Language Therapy Polyclinic, Sleep Disorders Center, Psycho-Diet Polyclinic, Hair Transplantation Center, Medical Aesthetics Department, and Medical Oncology. It also brings together multidisciplinary branches such as Oncological Surgeries, Obesity Surgery, Hand Surgery, IVF Center, Palliative Care Center, and Interventional Radiology, all under one roof.

Istinye University Hospital Medical Park Gaziosmanpaşa, serving with its dynamic and teambased system, advanced technology and scientific understanding; operates with a multidisciplinary working principle. It provides world-class service in all branches; the most up-to-date medical and surgical methods are used in the diagnosis and treatment of chronic diseases such as diabetes, obesity, hypertension, heart diseases, and cancer diseases, which are considered to be diseases of our time, with modern technologies.

## TOPKAPI CAMPUS

- Fully Equipped Classrooms
- High Technology Medical Labs
- Computer Workshops
- R&D Centers
- Conference Rooms
- Multipurpose Rooms
- Library
- Student Center
- Congress Center
- Gym

# LOCATION AND TRANSPORTATION

*"Istanbul is the heart of the world, and Istinye University is at the heart of Istanbul!"*

Divided by the Bosphorus and built on two continents, Asia and Europe, Istanbul is a metropolis, which is the crossroads of different civilizations. Thanks to its rich historical and cultural heritage dating back to Byzantium, there are many historical places to explore in Istanbul.

Declared as the European Capital of Culture in 2010, Istanbul is a city that hosts many important cultural and sporting events, concerts, and festivals, as well as its natural beauty. Istanbul's atmosphere encourages students to adopt a very active lifestyle.

Istinye University gives its students the opportunity to spend their university years in this dynamic metropolis and experience some of the most unforgeable moments of their lives.

Located in the city center, both Istinye campuses are conveniently close to public transportation, including the subway, metrobus, Marmaray, and tram lines.

We offer complimentary transportation services to and from both of our campuses, ensuring convenience and ease of access for our students and staff.

# STUDENT LIFE OUTSIDE OF LECTURES

Creating a campus life brimming with social activity through more than 50 student clubs, from theatre to photography, Istinye gives students the opportunity to be versatile.

*It is designed to provide students with an academic environment enhanced by fitness centers, libraries, study halls, and private rooms for studying.*

The ISU Student Center provides students with a vibrant university life through a variety of events, while also preparing them for their future careers with services such as career consultancy, internship opportunities, and psychological support.

Istinye University hosts hundreds of events throughout the year and offers students a socially engaged, learning-oriented environment.

Istinye offers spacious green areas for students to relax and enjoy time in the heart of the city.

Students will socialize in the Student Center and immerse themselves in campus life, thanks to the large study areas and green spaces, all located in the middle of the city.

# RESEARCH AND ACADEMIC

## New Generation R&D Centers

*Designed by experienced researchers and equipped with advanced technology, the Research and Development (R&D) Centers at Istinye University contribute to both public and academic research across all fields.*

## Laboratories and Workshops

We believe that practical experience is as important as theoretical experience.

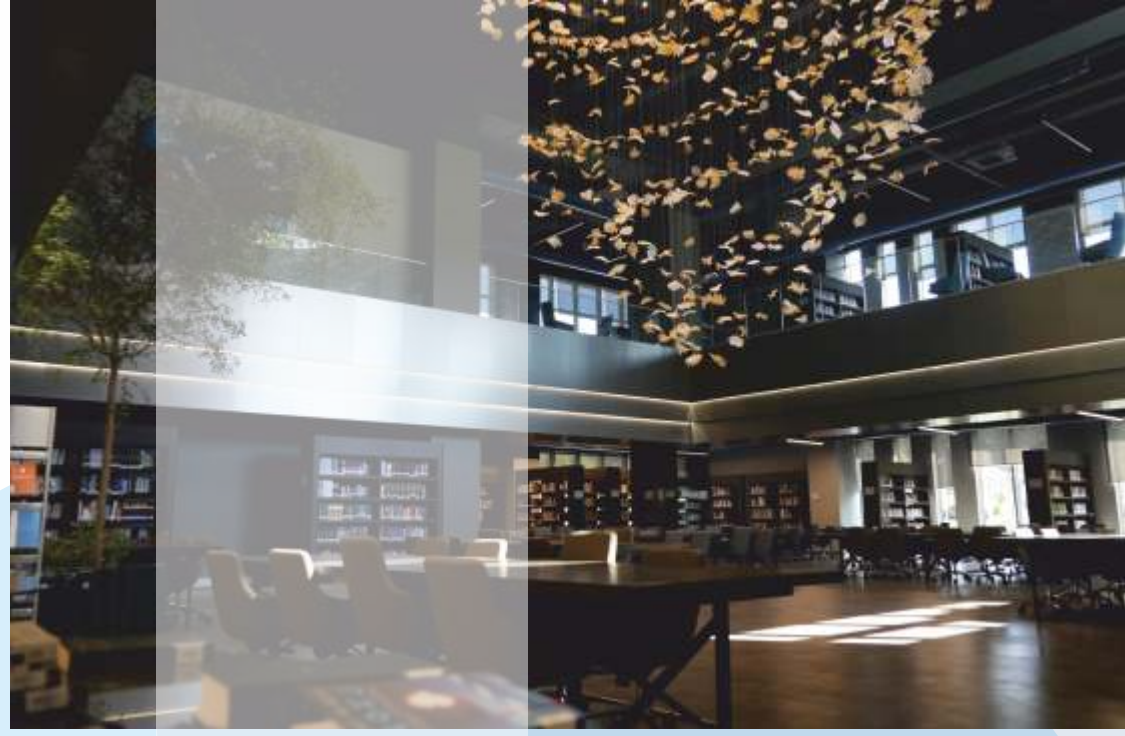

Learning through experience is supported by laboratories and workshops that are equipped with the latest technology.

Both our campuses have the labs for our students to conduct their research and study while experiencing several workshops to have on-the-job training.

# Library

From literary classics to research books, Istinye offers students a comprehensive collection and user-friendly database programs, along with quiet, peaceful study rooms and easy access to computers.

## With its collection consisting of printed books and periodicals, e-books and e-periodicals;

- Vadi Central Library occupies an area of 2300 m<sup>2</sup> (1 super quiet study area, research area, 1 computer area, 4 group study rooms, and a seating capacity of 375).
- Topkapı Library occupies an area of 810 m<sup>2</sup> (1 super quiet study area, 1 research area, 1 computer area, 1 general area, 2 group study rooms, and a seating capacity of 186).
- Liv Hospital Bahçeşehir Faculty of Medicine Library occupies an area of 114 m<sup>2</sup> with a seating capacity of 36.
- Medical Park Gaziosmanpaşa Faculty of Medicine Library occupies an area of 159.50 m<sup>2</sup> with a seating capacity of 34.

The Silent Study Area within Topkapı Library, with a seating capacity of 174 people, is open 24/7.

Central Library open 24/7

Learning new languages is like a key opening different gates and worlds. With this motivation, foreign language education is given utmost importance by Istinye.

We are offering two different preparatory programs, English Preparatory Program for English-Medium department students and Turkish Preparatory Program for Turkish-Medium department students.

Modern Languages Division of the Foreign Languages Department provides our students the opportunity to learn a second or a third foreign language besides English.

A diverse range of language courses that can take students from beginner to advanced level are offered, and many of our courses are taught by native speakers.

Our aim is to enable students to actively use a foreign language, providing excellent preparation for work, study, or travel abroad. Learning a language offers students not only the possibility to increase their knowledge of other cultures and broaden their horizons, but it will also enhance their employability and enable them to build confidence to study or undertake an international placement abroad.

Languages we offer include Arabic, Chinese (Mandarin), French, German, Italian, Russian, Spanish, and Turkish as a foreign language.

On the other hand, our ISU TURKMER program is for students who want to learn Turkish to meet the language criteria of their departments or to improve their language skills.

## Academic Staff

Our experienced academic staff, who generate international and scientific values in their own fields and contribute to global science, prepare our students for the future.

As the backbone of Istinye University, our expert academic staff lead our students on their academic journey throughout their years spent in our university.

# RANKINGS

## 01. According to the Webometrics World University Ranking:

6,640th worldwide

175th in Turkey

## 02. In QS World University Rankings 2025:

601+ in Europe University Rankings

61st in Western Asia

## 03. In US News World University Rankings 2024-2025:

1739th in Best Global Universities

667th in Best Global Universities in Asia

43rd in Best Global Universities in Turkey

## 04. According to the 2024 Round University Ranking:

249th in World Rank (RUR Overall)

8th in Country Rank

23rd in RUR Teaching

427th in RUR Research

684th in RUR International Diversity

958th in RUR Financial Sustainability

Received the Silver League

## 05. In Times Higher Education (THE) World University Rankings 2025:

Overall score in World 1001-1200

13th among 91 universities from Türkiye

Highest Ranked Pillar: International Outlook

9th among Foundation Universities

4th among Foundation Universities in Türkiye (THE Interdisciplinary Science Rankings)

## 06. In Times Higher Education (THE) Impact Ranking:

801-1000 in overall score in the World

101-200 in Health and Quality of Life

3rd among Foundation Universities in Turkey (SDG-3)

## 07. The University Ranking by Academic Performance (URAP), organized by Middle East Technical University (METU):

7th among Foundation Universities

26th among Universities with a Medical Faculty

35th overall in Turkey

## 08. According to the Hizmet İhracatçıları Birliği (Service Exporters' Association), under Turkey's Ministry of Trade:

Istinye University was awarded 4th place in the Educational Services category among private and public institutions in the evaluation of Service Export Champions for both 2021 and 2022.

# PROGRAMS

**Vocational  
Schools**

**1**

**Institute**

Founded on the strength of 25 years of knowledge and experience of the MLPCare Group, one of the leading health institutions in Turkey and in the world, Istinye University offers its students all amenities of modern education with its 9 Faculties, 2 Vocational Schools and 1 Institute.

## Faculty of Medicine

### Medicine (Turkish and English)

Istinye University Faculty of Medicine, which started its educational and research journey with its first students in the 2016-2017 academic year, took its deserved place among the most prestigious and preferred medical faculties in our country and our city with its distinguished academic staff, qualified education program, and education and research laboratories that meet international standards.

With its R&D Labs, extensive network of hospitals, and an academic program enriched with clinical experience, our Faculty of Medicine trains physicians committed to a scientific approach, advocating for universal truths, and contributing to scientific advancements.

## Faculty of Pharmacy

### Pharmacy (Turkish and English)

Providing its students with research experience from day one through laboratory facilities, our Faculty of Pharmacy trains pharmacists who play an active role in the development of a product that can potentially be manufactured as a drug, and who will support Turkey in becoming a leader in the pharmaceutical industry.

## Faculty of Dentistry

### Dentistry (Turkish and English)

Faculty of Dentistry, which started its educational activities in the 2021-2022 academic year, aims to create a studentcentered dentistry faculty that combines science-based, evidence-based, and qualified dentistry education with research culture and technology, and where there is strong communication between the academics and the students.

It also aims to train leading dentists who can think critically and creatively, adopt a scientific perspective, respect humanity and ethical rules, and add value to their profession by carrying out scientific research that contributes to the progress of humanity and produces universal knowledge.

## Faculty of Engineering and Natural Sciences

**Computer Engineering (English and Turkish)**  
**Electrical and Electronics Engineering (English)**  
**Industrial and Systems Engineering (English)**  
**Mechanical Engineering (English)**  
**Software Engineering (Turkish and English)**  
**Biomedical Engineering (English)**  
**Molecular Biology and Genetics (English)**  
**Mathematics (English)**  
**Chemistry (English)**

Our Faculty of Engineering and Natural Sciences, which includes 11 departments that work in cooperation, drives the changes in the world of technology and trains creative engineers who are the pioneers of new techniques, methodologies, and ideas to be generated.

## Faculty of Economics and Administrative Sciences

**Economics (English)**

**Business Administration (English)**

**International Trade and Business (English)**

**Health Management (Turkish)**

**Management Information Systems  
(Turkish and English)**

**Political Science and Public Administration  
(Turkish)**

**International Relations (English)**

Our Faculty of Economics and Administrative Sciences which is supported by an advanced technology in cooperation with the industry and offers a people-oriented academic program based on values of justice, trains individuals with developed analytical thinking skills who are open to innovative approaches, and who can provide solutions for problems related to the society and the environment.

## Faculty of Communication

**Public Relations and Advertising (Turkish)**  
**Radio, Television and Cinema (English)**  
**New Media and Communication (English)**  
**Visual Communication Design (Turkish)**

Istinye University Faculty of Communication plans its educational structure to facilitate the advancement, development, and specialization of its students in two main areas. The first is to equip students with sufficient knowledge and experience in their academic field, preparing them for graduate education and enabling them to develop academic competence. The second is to train qualified professionals for sector-specific fields, emphasizing transition, inclusiveness, and sustainability based on the department in which the students are educated.

## Faculty of **Humanities and Social Sciences**

**English Language and Literature (English)**

**Psychology (Turkish and English)**

**Turkish Language and Literature (Turkish)**

**Interpretation and Translation (English-Medium)**

**Philosophy (Turkish)**

With the academic programs where theoretical knowledge is reinforced by practical and laboratory courses, our Faculty of Humanities and Social Sciences trains individuals who will lead the society by upgrading their skills and knowledge in the face of change.

## Faculty of **Fine Arts, Design and Architecture**

**Interior Architecture and Environmental Design (Turkish)**  
**Architecture (Turkish and English)**  
**Gastronomy and Culinary Arts (Turkish and English)**  
**Digital Game Design (English)**

Set up with studios in line with the goal of developing practical skills based on creative thinking, our Faculty of Fine Arts, Design and Architecture prepares the students for their careers ahead.

## Faculty of Health Sciences

**Nutrition and Dietetics (Turkish)**

**Child Development (Turkish)**

**Speech and Language Therapy (Turkish)**

**Midwifery (Turkish)**

**Physiotherapy and Rehabilitation (Turkish and English)**

**Nursing (Turkish and English)**

Leaning on the know-how and experience of many years of the MLPCare Group which is one of the largest health brands of Turkey and the world, our Faculty of Health Sciences trains healthcare professionals who will make a difference with their professional skills and capabilities in the field of health.

## Vocational School of Health Services (Turkish)

**Oral and Dental Health**  
**Oral and Dental Health (EP)**  
**Operation Room Services**

Health Management (PhD) (Turkish)

Our social sciences graduate programs prepare students for industry and academia through collaborations with the private and public sectors. Graduates gain a strong foundation in theory and practical skills to meet modern world demands.

# INTERNATIONALIZATION

Istinye University believes that the main condition for modernization in any institution is internationalization.

In this context; full-time international student recruitment, application and admission processes of international students, international promotion activities, Erasmus + Student and Staff Mobility, bilateral exchange programs within academic cooperation, and process of international cooperation protocols are carried out by our university.

## Erasmus+

*"Go on your best trip with Erasmus!"*

Students can study or have their internships in European countries, at any distinguished institution that we are partnered with. We believe that the Erasmus program is a great opportunity to experience the world abroad and develop language skills. We are not only sending our students and staff to European countries to gain experience and learn from other cultures, but also hosting students and staff from all over Europe within the scope of the mobilities.

**Istinye University ranks among the top three universities in terms of the number of incoming students participating in international exchange programs, according to the 2023 University Monitoring and Evaluation General Report by the Council of Higher Education.**

In this way, our recognition in the international arena is increasing and the collective notion of knowledge expands by sharing with the world. We have over 300 Erasmus+ bilateral agreements signed with over 90 universities from 20 different countries and general academic cooperation protocols with over 90 universities from over 30 different countries with the aim of increasing our international visibility and carrying out innovative work by combining different visions.

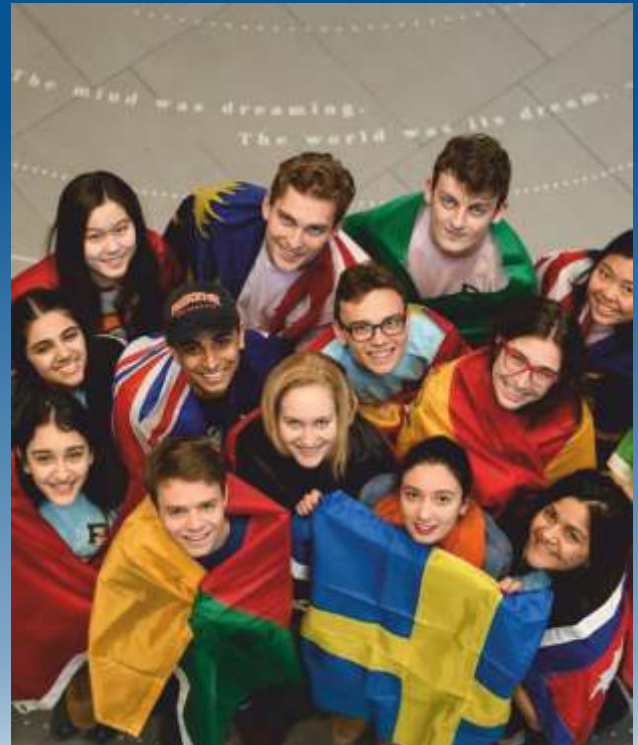

In addition, we are a partner of one of the biggest Medical Consortiums with Trakya, Duzce University, Ankara Medipol University, Hacebepe University, and Sakarya University, leading universities in the Medicine field; partner of Social Sciences Consortium with Aylım University, Aydın University, Bahçeşehir University, Başkent University, İzmir Economy University, Marmara University, Turkish-German University, and Yeni Yuzyıl University; and a partner of Doğu Marmara Üniversiteler Sanayi Konsorsiyumu (DUSK) with Duzce University, Trakya University, Bolu Abant İzzet Baysal University, Sakarya University, Sakarya Chamber of Commerce and Industry, Bolu Chamber of Commerce and Industry, and Duzce Chamber of Commerce and Industry.

## International Students

Isinye University, which has over 4,500 international students from more than 100 countries, expands its international student community day by day and is gradually becoming a center of international education in Turkey.

Our International Relations Department manages all the procedures for international students, from their enrollment in departments to obtaining a residence permit.

With our inclusive approach, students are able to adapt to their new environment easily and become part of the world they are experiencing.
